PRODUCT SHEET

The Luxx Fleece Blanket

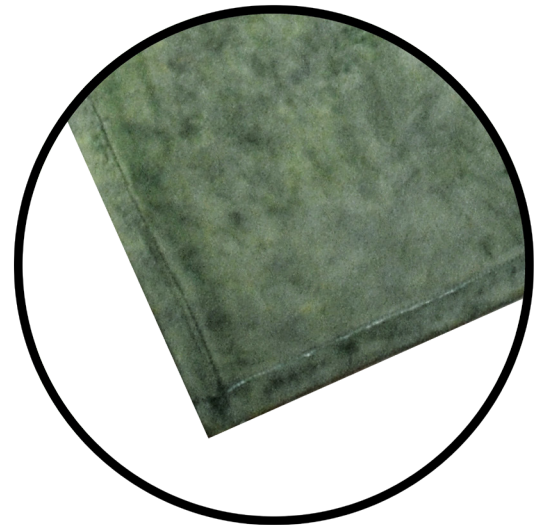

The Luxx Fleece Blanket is made entirely from a plush fleece style fabric. Microfiber polyester fleece throw is knitted with ultra-fine microfiber yarns, finely shaved on both sides for a soft touch. Your unique design will appear on the top side, bottom is white.

Our plush fleece style polyester fabric provides the feel of comfortable fur while retaining the durability of synthetic fabric.

Dye sublimation is the method of applying an image to specially coated substrates, using three main ingredients: sublimation ink, heat and pressure. We take your art in digital form printing it to dye-sub paper. The printed paper is then aligned with the sublimation media like fleece, textile, various man-made fabrics, and run through heat and pressure to create the final product. Under heat & pressure these dyes, in gas form, are absorbed and encapsulated with pinpoint accuracy into the substrate. The result is a permanent printing which will not wear off, and is washable.

It is printed edge to edge for impactful designs and creates a large advertising surface to display a high quality, impactful full color graphic message.

See pricing on your secure customer JVI Wholesale Site.

Close Up of the Edge

Features:

30" x 40"

50" x 60"

Plush fleece style fabric.

Knitted with ultra-fine microfiber yarns

See website for product tag & file requirements

Benefits:

Large, full color advertising surface

High impact promotional item

Durable
